National Domestic Abuse Services

If you are in immediate danger, call 999 and ask for the police.

If prompted, press 55 to Make Yourself Heard and this will transfer your call to the police. Pressing 55 only works on mobiles and does not allow police to track your location.

Call 999 from a landline

If the operator can only hear background noise and cannot decide whether an emergency service is needed, you will be connected to a police call handler. If you replace the handset, the landline may remain connected for 45 seconds in case you pick up again.

When 999 calls are made from landlines, information about your location should be automatically available to the call handlers to help provide a response.

If you are deaf or can't use a phone

You can register with the emergencySMS. Text REGISTER to 999. You will get a text which tells you what to do next. Do this when it is safe so you can text when you are in danger.
